## MFC-9130cw

If you're looking for a fast, reliable digital color printer for your small business, the Brother MFC-9130cw may be exactly what you need. It takes big business features like a 3.7" touchscreen display and wireless networking, and packs them into an affordable, compact all-in-one designed to fit your small business workspace and budget. It prints and copies high-impact color and crisp black documents at up to 19ppm, and scans and faxes too. It's ideal for businesses that need an all-in-one to primarily print black business documents, but also need to print professional-quality color documents in-house from time to time.
