

intimus 852 In the Department

Professional Data Shredders – a Synthesis of Technology, Performance and Design. All intimus® shredders are built from durable, precision engineered, high-performance components, designed for a long life of high volume usage. The product range covers all requirements from day-to-day office use up to High Security Shredding machines in use for destruction of classified material in line with all current legal requirements such as DIN 66399 or NSA 02/01. intimus® shredders carry various features which make them unique in user-friendliness and operating efficiency.

As an option this department shredder is available with Vario-Speed technology. This drive concept optimizes the working speed depending on the shred load. Thanks to this the shredder can be operated on a 230V socket outlet.

- Automatic on/off control via a light barrier whenever paper is introduced into the feed opening
- It is controlled manually via the soft-touch membrane keypad when paper is inserted into the feed chute
- Automatic reverse in case of paper jam
- Optical or audible fault indication
- Fully enclosed dust-free mobile base with large capacity integral catchbasket
- The catchbasket can be pulled completely out of the shredder on a sliding frame for easy removal of the shredded material
- Mounted on rollers for flexible use

W/D/H 75 x 55 x 180 cm
